## Industrial & Pipeline Services

Providing Industrial & Pipeline services for clients in the Oil & Gas, Energy and Manufacturing Industries. We provide extensive knowledge and expertise in constructing projects within both the industrial and pipeline space.

### Construction

- Capital Expansion
- Planning & Scheduling
- Fabrication & Installation
- Pipeline Construction
  - Reversal Piping
  - Compressor Stations
  - Pumping Stations
- Tube Rolling
- Piping & Valves
- "U" & "R" Certificates - Code Work
- Heater Re-tubes
- Pipe Fabrication & Installation

### Maintenance

- Plant Maintenance
- Planning & Scheduling
- Turnaround Execution
- Tower Service/Revamp
- Tray Replacement
- Heater Service
- Bundle Extraction
- Torque & Tensioning
- Pipeline Repair & Rehabilitation
- Re-Routes & Line Adjustments
- Integrity & Maintenance
- Hydrostatic Testing

## Insulation & Scaffolding Services

Providing full softcraft offerings at the highest quality workmanship at competitive rates. Performance starts with detailed estimates ensuring schedule & budget compliance. Our certified craft personnel consistently exceeds Industry training standards, to ensure we provide the most proficient, and safety conscious professionals.

### Insulation

- Maintenance
- Outages
- Turnarounds
- New Construction
- Boilers
- Ducting
- Piping
- Equipment
- Weatherproofing
- Cladding
- Jacketing
- Hot, Cold & Cryogenic
- Corrosion Under Insulation'
- Paint & Coatings

### Scaffolding

- Erection & dismantle
- Internal & External
- Boilers & Process Furnaces
- Hanging Scaffold
- Fully Engineered System
- Custom Designed Scaffold
- Shoring Systems
- Temporary Elevators
- Temporary Trash Chutes
- Temporary Structures
- Wind Breaks

## Electrical & Instrumentation Services

Our expertise involves low- & medium-voltage installations of conduit & cabling, testing check-out, start-up & commissioning replacement. We provide modification & upgrades to new or existing electrical distribution systems, including, but not limited to switch gears, distribution transformers, PLCs, motor control centers, and more.

### Electrical

- Industrial/Pipeline
- New installations
- Tubing
- Grounding Systems
- Low Voltage Switchgear
- High & Low Voltage Termination
- Drives Service and Troubleshooting
- Above & Under Ground Raceway Installations
- Power and Control wire
- Fiber Optic Termination
- Skid Installation
- Alterations & Refurbishing

### Instrumentation

- Complete Packages
- Fabrication
  - Measurement & Flow Control Skids
  - Orifice
  - Ultrasonic
  - Coriolis
  - Positive Displacement (PD)
  - Turbine Meters
- RTU Packages
- Chromatograph Buildings & Communications
- Meter Inspections & Repairs
- Qualified Instrumentation & Electrical (I&E) Techs

## POWER GENERATION

Gulf & Western is a leader in Power Generator Packages. New or fully refurbished engine or turbine driven gen sets done to your specifications and our high standards. All of Gulf & Western packages are field-friendly and done by technical experts in the industry. From sand to snow, hot weather packages, cold weather packages, with sound attenuation or without, microgrid capabilities; customize your gen set today. We work with the leading gen set brands including: **Caterpillar, Marathon, Stamford, Marelli, Hyundai, Weg and Kato.** Larger Plant application experience include all major reciprocating brands and aeroderivative brands by **Pratt Whitney, GE, and Siemens.** Simple or Combined Cycle expertise, for fixed and mobile applications.

## **GAS COMPRESSION**

Compression packaging and refurbishing on-time and on-budget. Let Gulf & Western Industries turn your compression equipment or ours, into a fully optimized compression output and sizing solution with our inhouse engineering and design capabilities. We ensure your engine and electric motor driven packages are completed to the highest standards and your specifications. All of Gulf & Western packages are field-friendly and done by technical experts in the industry. We work with the leading compressor brands including: ARIEL, DRESSER-RAND, GE, AJAX, WORTHINGTON, SUPERIOR, QUINCY, ATLAS COPCO, SULLAIR, INGERSOLL RAND, JOY GARDNER-DENVER, GEMINI, FRICK, COMPAIR, AIR DRILLING PRODUCTS.

## Field Service Personnel

- Pipefitting
- Boilermaking
- Welding(Code/Specialty)
- Millwright
- Crane & Equipment Operations
- Rigging
- Bundle Extraction
- Refractor
- Turbine Mechanics & Operators
- Compressor Technicians
- Engine Mechanics

## Parts

Our commitment to our clients extends beyond manufacturing and refurbishment to life cycle management of their mission critical equipment. We provide 24/7 parts and service solutions for our clients engines, compressors, power generation units and more. Our stocking program manages downtime risk while maintaining a cost conscious awareness. For your critical compressor and generator needs, Gulf & Western dynamic inventory and vendor network is able to respond rapidly to your parts needs. In addition to core components we also stock parts for control panels – New and rebuilt: **Brands including Altronic, Murphy, Deep Sea, Woodward, Comap, Dief and Wildcat.**

**Through executive expertise combined with a skilled workforce, and experience in global maintenance & capital projects, Gulf & Western encompasses a culture of excellence that is visible in every aspect of our work.**

**We invite you to call us with your opportunities or challenges. We are here to serve. Allow our experience and engineering capabilities to find new ways to accelerate project delivery, and control costs. Our team is ready to continue service beyond installation with operations and maintenance and field personnel.**
